

There were times I asked myself: Why are the Jews disliked for millennia?

I know why I SPECIAL IMPACT TODAY one of character of these members do not like religion. In 1998, after 13 years of marriage, I settled on a former Slovenian asylum seekers and Catholics differ. I did not know why but I was on from there, badgered by this type of character of Jewish religious relatives. I never had anything to do with Jews or other religious members. Why I know there were Jews / Zionists. Because they did identify themselves as Jews in the various ways and everywhere, if "feces" at the steaming, was a Jew / Zionist was there

Be it a 2m Masturbate, who was the husband of a Jewess, and over the Internet to move me. Whether it was followed by the landlady in Montreal, who was a Jew, which is mounted in my rented apartment is a mini-camera and microphone, respectively. Mount has. Whether it is later the neighbor here in Switzerland, the Israeli militarist and incited the reserve was not only my neighbors against me, but "funnily" I had from then a virus on my mobile phone,

These are just three examples which I will list them separate.

The moral of the story:

When my ex between 1988/2009 did work at a major Swiss Reinsurance, he was the liaison man in the nuclear espionage case, Switzerland / Libya / USA /..... I did not know all the years of marriage. I never had anything to do with it. But not only was I involved in that, but also against those dirty characters make children do not stop, (if your mother does not cease to write, then you'll also involved), or they want to intimidate me and threaten me directly with death.

According to my person, I tried to find 2001ein first constructive conversation. What such a reinsurance executive with characters is not possible, however. That was one reason why I left in 2004 for the first time to the public. The international public. My stories are now loaded down around the globe. There are some funny stories and others do not feel funny.

Why do not they find some fun?

The stories are based on about 80% to facts, but are formulated in a way that it satire, or even call it, can, could want or not. Of course I understand if "some" find it utterly humorless. I also think it made absolutely no sense of humor is responsible for something with which I have nothing to do with it.

I have to top up the chairs, reinsurance and policy attempts to find a conversation with the person responsible. How can they read, and I tried it! And yes! I was also part of the answer. And no! I received no help or support. Quite the contrary. 1998-1999, when I could not work because of serious arm injuries was imposed on me to work.

In order for the employees of his former reinsurance CHF 30'000 .- per month net income of only CHF 3000 - for child and woman had to pay. Evidence in court. Now working as I can, I can not work and I bullied.

Their very arrogant character accordingly, believe that character can do and how they please, and try this political scandal to sweep under the carpet.

But even these "certain" character and their "henchmen" can not do more and make it like that popular. The time is always changing.

What do you think: Why can not allow such character?

Eg.: Again, a cantonal parliament open session here in Switzerland in a synagogue! Still bashing on

people who tease, the environment etc. incite just because they believe this character would have in the world to determine who, what, how, where, have to live, do, is to think, just because the Mossad does not want nuclear weapons, Gadhafi plans gets.

I will not think it is one nation ever allowed to possess nuclear weapons.

To hide the whole thing like, they believed that character could harass innocent people. Over my characters and their disgust with such agents is, after all that happened, right. There were now even more Jews / Zionists and non-Muslims, Christians, Hindus, Buddhists, etc. but there were always Jews / Zionists in the area and as it later turned out again and again: the mastermind.

And no religion other members!

It is not up to me to give this story a different drive, now just the Reformed Jews, the "intelligent" and powerful required to clean up in their circle a bit and try to at least minimal, again good to do something nasty characters verbrockt have. You know, I'm just a very, very small cog in the wheel. A, x-billion. Of course, I once believed, just as it was taught me in school: The Jews are always the "poor". And there was also the time when I asked myself: Why are the Jews were accused /. I had to learn it themselves as innocent bystanders: Why are you / I / am responsible individual. Now I know why Jews, for me personally there are only certain characters who belong to the Jewish religion, are infamous for millennia. They were able to determine a time that we should not tell the truth about their doings, but those days are now definitely over.

Here I would like to state clearly that I have nothing against Jewish religious members, but only against those described in this letter, special type of characters.

I think, but I am, and was never religious and I've also never been particularly interested in it and neither am I, and was politically engaged.

BUT! I will not make me responsible for something with which I had never to do anything.

To give you a clear overview of the scandal of nuclear espionage affair Switzerland / Libya / USA /..... identify the agents and the private sector and politics, I am currently in the original drafting of the chronology with documents.

So I ask you for your understanding and you must put off unfortunately.
